INTRODUCTION.

1. The returns of the External Trade of the Presidency of Bombay for the year 1873-74, or for the 12 months ending 31st March 1874, are herewith submitted for general information.

PORT OF BOMBAY.

2. The value of the whole External Trade of the Port of Bombay for the year 1873-74 was Rs. 43,98,91,196, showing an increase of Rs. 2,34,21,608 against the value of the trade of the preceding year, which amounted to Rs. 41,64,69,588. These values are exclusive of the Interport Trade between Bombay and other British ports in the same Presidency.

3. The following statement exhibits the value of the trade for the five years preceding 1873-74 :—

Years.	Value of Imports.	Value of Exports.	Value of Re-Exports.	Total Value of Trade.
	Rs.	Rs.	Rs.	Rs.
1868-69	28,18,07,289	22,21,64,214	4,43,33,210	54,83,04,713
1869-70	25,91,62,096	21,93,96,086	5,19,15,241	53,04,73,423

Average of five years	22,73,39,759	22,21,98,641	4,92,29,949	49,87,68,340
Value for 1873-74	19,37,62,792	19,89,83,773	4,71,44,631	43,98,91,196

4. The value of Government stores, imported and exported, during the year 1873-74 was Rs. 1,19,793 against Rs. 34,77,284 in the year preceding, so that, deducting these items from the aggregates above given, the following results are derived :—

Value of trade for 1872-73	Rs.	41,29,92,354
,, ,, 1873-74	,,	42,88,41,403
Increase in 1873-74...	Rs.	1,58,49,049

5. Further, the value of Bullion and Specie, imported and exported, during the year 1873-74 was Rs. 4,68,91,300 against Rs. 4,53,50,393 in the year preceding, which shows an increase of Rs. 15,40,907. This being deducted, leaves a net increase in the actual trade (merchandise) of Rs. 1,43,08,142.

6. Considerable remittances in Specie pass annually on Government account between Bombay, Madras, Aden, Persian Gulf, Malabar and elsewhere, and these also have been excluded from the figures shown above.

7. The Import Trade for the two years 1872-73 and 1873-74 has been distributed in the following proportions between foreign ports of other countries, foreign Indian ports, and ports in other Presidencies :—

	1872-73.

Total...	15,94,02,689	1,01,75,490	2,41,84,613	19,37,62,792

So that of the whole Import Trade of the port during 1873-74 about 81 1/16 per cent. has been with foreign countries beyond the seas, 6 1/16 per cent. with foreign Indian ports, and 12 1/16 per cent. with British ports under the Presidency of Bengal and Madras including Scinde; while of the same trade 17 3/4 per cent. has been in Bullion and Coin, and 82 1/4 per cent. in Merchandise. The various countries and ports with which trade has been carried on, and the articles of commerce employed, will be found in Parts II. and III., appended.

10. In many of the articles of commerce, in the importation of which Bombay is concerned, there has been, during 1873-74, an increase in quantity as well as in value, and the following important items produce the percentage increase given against each :—

12. The causes of increase in the more important articles may be briefly explained as follows :—

INCREASE.

Cotton, Raw.—This Cotton is chiefly imported from Cutch, Persian Gulf and Kurrachee. It forms about $\frac{1}{10}$ of the Cotton Trade of Bombay, the remaining $\frac{9}{10}$ as being produced in the Presidencies or imported by land.

Cotton Twist.—An increase of 16 lacs, or about 29 per cent. This is due to the sudden fall in prices at home inducing large orders from India, which were executed at the close of the year under report.

Cotton Piece Goods.—This increase is greater than might have been expected when the large number of Cotton manufactories recently established in India is considered. It is understood that this is owing to the transfer to Bombay of the Calcutta orders, where the prices had fallen owing to the famine.

Fuel.—This fuel is chiefly Coal, the value of the imports of which have largely increased. The value of the Coke has fallen off. The erection of new mills seems to account for this increase.

Ivory and Ivoryware.—This increase is almost entirely due to greater imports of Tusks and Teeth. There seems to have been a great demand in England and Europe of late years.

Machines and Machinery.—The increase is due to the large increase in the number of mills and Cotton machinery.

Metal: Iron.—The value of the import trade in Iron, though greater than last year, has not yet recovered its former position.

Metal: Tin.—Tin and Iron are the only metals in which there has been an increase of imports.

Railway Materials.—The falling off last year was attributed to there being "less lines of Railway under construction". Imports, though higher in value than last year, are still far below what they once were. The value of materials and State Railways does not appear in these figures, but are shown under "Government Stores".

Silk, Raw.—There has been an increase of about 17 per cent. in the value of Raw Silk imported, but the value is still less than it was in 1869-70 and 1870-71.

Silk Piece Goods.—This increase is due to large importations from China.

Sugar and Sugar-candy.—The prohibition against marriages, &c., referred to in last year's report, having been removed, the consumption and consequently the imports have increased.

Timber and Wood, and Manufactures of.—This increase of about 4 lacs, or 18 per cent., is chiefly owing to large imports from Indian ports.

Woollen Piece Goods.—There seems to be a steady increase in this trade, which is chiefly carried on with the United Kingdom. The markets for Merinos and Cloths are glutted.

14. The causes of decrease in imports of important articles are as follows :—

DECREASE.

Arms, Ammunition, and Military Stores.—The value of these stores, which for some years had been ranging rather high, has been reduced this year, owing, doubtless, to the prohibitory orders of the Government of India.

Coffee.—The falling off in imports is in Mocha Coffee. It is understood that a large trade is now carried on direct from Hododa and Aden to Europe, and the Mocha Coffee no longer comes to Bombay as an emporium of the Coffee Trade in such large quantities as formerly.

Dyeing and Colouring Materials.—There has been less importation of Aniline Dyes from Europe, and the tariff value has been reduced from 8 annas to 4 per oz.

Fruits and Vegetables.—There is a great decrease in the importation, from the Malabar Coast, of Cocoanuts and Copra in consequence of inferior crop.

Grain and Pulse.—There was little or no importation from Calcutta or the Eastern Ports this year. This accounts for the decrease.

Ale, Beer, and Porter.—Decrease as compared with 1872-73, but a slight increase as compared with the preceding season.

Wines and Spirits.—The large imports of 1871-72 were indirectly due to the effect of the firman privileges enjoyed by Portuguese vessels at Surat, and the revocation of that privilege has caused a decrease.

Matches, Lucifers, and all other Sorts.—It is understood that Matches are now manufactured in Bombay.

Metal : Copper.—The remarkable falling off in the value of Copper imported, referred to in the Administration Report of last year, continues still to exist. Australian Copper to the value of about 33,000 Rs. was imported from the United Kingdom in 1872-73, but none was imported this year.

Oils.—It was stated in the last year's report that the market was overstocked, and the imports have, therefore, apparently been checked. This is especially the case as regards Cocoanut Oil from Madras and Ceylon. The imports of dutiable oils have, however, increased, as is explained under the head of Customs.

Paints, Colours, and Painter's Materials.—The importations of 1872-73 seem to have been exceptionally large.

Precious Stones and Pearls.—The importation of Pearls from Persian Gulf and China has fallen off during the year.

Spices.—The falling off has chiefly been in Cloves, owing to the destruction of the trees by hurricane in Zanzibar; the market value of Cloves has increased in an extraordinary proportion, or nearly five-fold.

Tea.—The production of Indian Tea will undoubtedly tend to diminish the value of the imports from China.

Wool, Raw.—The value of the imports has fallen off, the receipts from Kurrachee being less than in previous years in consequence of direct shipments from that port. During the three years named in the margin the imports by sea have amounted to lbs. 5,06,87,530, with a declared value of Rs 1,58,94,185, and the exports by sea have amounted to lbs. 5,55,26,844, with a declared value of Rs. 2,17,07,133. The difference between imports and exports is due to Railway traffic and interportal trade.

17. The percentage of Bullion and Coin exported during the year 1873-74 cannot be given, as Treasure has been shown under Re-Exports instead of under Exports; the whole export trade above shown consists, therefore, of Merchandise only.

21. The causes of increase and decrease in the more important articles are explained as below :—

INCREASE.

Cotton, Raw.—The crop has been good, and, though the home prices were not encouraging, the exportations have increased.

Cotton Piece Goods.—The increase is due to local manufactures.

Grain and Pulse.—This increase is due chiefly to the abolition of the export duty on Wheat, and partly to the demand for grain in the famine districts in Bengal.

Indigo.—The export of Indigo to the Persian Gulf has increased from about 50,000 rupees to Rs. 1,28,000, and is supposed to be caused by the necessity of dyeing in Persia the larger exportations of Grey Piece Goods. There is also a large quantity shipped from Bombay in the form of samples of Calcutta shipments, and sent overland to consignees in Europe.

Opium.—45,391½ chests have been exported against 42,465 chests in 1872-73.

Seeds.—These are almost entirely ruled at tariff values. The increase is shown in Linseed owing to excellent crops and low prices. The trade is chiefly with the United Kingdom and North America.

Silk Piece Goods.—The imports having increased by upwards of 2 lacs, there is a corresponding increase of about 1 lac in the exports.

Tobacco.—The Tobacco is chiefly produced in Guzerat, and shipped to the Red Sea and Aden.

DECREASE.

Coffee.—The great falling off in the exports of Coffee during the last two years is accounted for by deficient crops in the plantations. The value of the exportations from the Madras ports had fallen from 138 lacs in 1871-72 to 113 lacs in 1872-73 and the shipments from Cochin to Europe had fallen from 63,000 cwts. to 31,000 cwts. The importations into the United Kingdom are reported as follows :—

	1871-72.	1872-73.	1873-74.	
Mocha	... 759	 763	 457	Tons.

Cotton Twist.—The exportation of Cotton Piece Goods having increased, the demand for Twist has fallen off. Especially in Calcutta the exports to foreign ports have actually increased. The Railway traffic affects these exportations as regards Indian ports.

Dyeing and Colouring Materials.—The falling off has been in regard to Gallnuts (Myrobolams). The demand in London, &c., was very limited.

Hides and Skins.—The great demand for Hides and Skins in London, which caused the extraordinary rise in the exports of last year, no longer exists, and the exports have been reduced again to the dimension of 1871-72, which, however, was in excess of previous years.

Horns.—See above remarks on Hides.

Naval Stores.—The export of Coir Yarn from Bombay and other Indian ports, especially Cochin, have been very great, and the home markets were glutted. The diminished exports of 1873-74 are still in excess of 1871-72 and preceding seasons.

Oils.—The exports have decreased in consequence of the falling off explained under the head of Imports.

Spices.—Larger quantity of Pepper is shipped direct from Cochin to the United Kingdom, and the demand for Cardamoms has fallen.

Wool, Raw.—See remarks under Imports. The decrease is due to diminished supplies from Scinde.

Wool, Manufactures of—Shawls.—The home demand was very limited, owing partly to Indian Shawls having gone out of fashion, and partly to the glut caused by the large exportations of 1871-72.

22. The following tabular statement is given to show the state of the trade in Cotton—Raw at Bombay during the last ten years :—

There has been an excess of imports over exports to the extent of about 2¼ millions, made up by ¾ million of Gold and 1½ million of Silver.

As compared with last year there has been a large decrease in the imports of Gold and exports of Silver, and an increase in the exports of Gold and imports of Silver. On the whole there is a larger import of Treasure and a smaller export; the excess of imports over exports having been £ 1,201,948 in 1872-73 and £ 2,182,891 in 1873-74, as the following tables show:—

1.—GOLD.

36. *Balance of Trade.*—Including the value of Government stores and private merchandise the exports have largely preponderated, and the following statement shows for the last five years the excess in value of exports together with the excess in the imports over exports of Treasure as a set off, and the net result:—

	Excess in Value of Exports and Re-exports over Imports for all Government Stores and Private Merchandise.	Excess in Value of Imports over Exports for Treasure only	Net Result, being excess in Value of Exports over Imports.

The following statement shows the value of the export trade from, and import trade to, different countries. It will be seen that the exports to all the principal places out of India exceed in value the imports from those places; whereas the imports exceed the exports in regard to foreign ports in India, and ports in the other Presidencies:—
